  - Backend: Node js , Express js
  - Database: MongoDB
  - Authentication systems : Firebase, JWT
  - Version Control : Git, Github
- 

### Projects

**Pearl Bistro** | [Live Link](#) | [GitHub Repository](#)

*Tech Stack: React.js, Node.js, Express.js, MongoDB, Firebase, stripe*

- Developed a MERN stack application with secure user authentication via Firebase and dynamic menu management for restaurant owners.
- Integrated Stripe for secure online payments and real-time order tracking to enhance customer experience.
- Added email notifications for order confirmations and integrated the ImageBB API for dynamic image uploads.
- Ensured responsiveness and smooth UX/UI using Tailwind CSS, Framer Motion, and React, optimized for all devices.

**Click & Cash** | [Live Link](#) | [GitHub Repository](#)

*Tech Stack: React.js, Node.js, Express.js, MongoDB, Firebase, Stripe*

- Built a micro-earning platform using the MERN stack to connect job seekers and employers for short-term online tasks.
- Implemented Firebase authentication for secure user sign-up and login.
- Developed a task management system with real-time updates via TanStack Query, where buyers can post tasks and workers can apply.

**Next Door Service** | [Live Link](#) | [GitHub Repository](#)

*Tech Stack: React.js, Node.js, Express.js, MongoDB, Firebase*

- Built a 24/7 service platform allowing users to book and manage tasks like plumbing, cleaning, and veterinary care.
  - Implemented Firebase authentication for secure user logins and sign-ups.
  - Developed a dynamic service listing system with real-time updates and favorite service functionality.
-
