I'm a Front-End Developer with 4 years of academic experience and a web development certification. Skilled in HTML, CSS, JavaScript, and React, I specialize in building responsive, user-friendly interfaces. I also have experience in back-end technologies like Node.js, Express.js, and MongoDB, enabling me to create seamless full-stack solutions. Eager to learn and stay updated with industry trends, I'm open to relocation within the UK for the right opportunity.

SKILLS

- React JS
- Next JS
- MongoDB
- JavaScript
- Firebase
- Express JS
- Node JS
- GitHub
- Tailwind
- Bootstrap
- CSS
- HTML

PROJECTS

CLICK & CASH

[Live Link](#)   [GitHub Repo Link](#)   **Dec 2024 - Present**

- Developed Next Door Service using MERN stack to provide 24/7 access to household services like plumbing, electrical work, cleaning, and more.
- Implemented Firebase authentication for secure user sign-up, login, and password encryption.
- Applied CRUD operations for managing services, allowing users to book, update, and cancel services, with admin control over service offerings.
- Designed a responsive UI with dark and light mode, ensuring a smooth, customizable experience across all devices.
- Integrated social media links (LinkedIn, Instagram, YouTube, Twitter) for enhanced user engagement.
- Ensured data security with SSL encryption and MongoDB backups to protect user information and maintain platform stability.

NEXT DOOR SERVICE

[Live Link](#)   [GitHub Repo Link](#)   **Nov 2024 - Present**

- Built Click & Cash using MERN stack to connect job seekers and employers for short-term online tasks.
- Implemented Firebase authentication for secure sign-up, login, and password encryption.
- Applied CRUD operations for managing tasks, workers, and buyers, ensuring easy task creation, updates, and role management.
- Designed dynamic task listings, allowing users to browse, apply, and manage jobs easily.
- Integrated social media links (LinkedIn, Facebook, GitHub, Twitter) for user engagement.
- Ensured data security with SSL encryption and MongoDB backups for platform stability.
